MEMORANDUM FOR THE RECORD

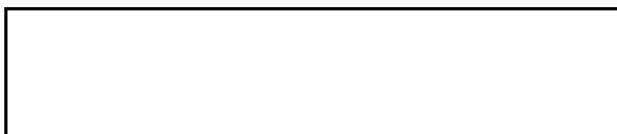

SUBJECT: Possible Intelligence Subcommittee Hearings Re Agency  
Work Force Reduction.

1. In meeting with Frank Slatinshek, Chief Counsel, House Armed Services Committee, he told me that Chairman Nedzi, Intelligence Subcommittee, is concerned about the long-term application of actions being taken in reducing work force at CIA. He said Nedzi is not concerned with the reduction per se. He is concerned, however, that we may be letting a lot of people go with skills that are not marketable in today's business climate. He feels that this could create serious security problems and is interested in determining what is being done, if anything, in this area.

2. Slatinshek said that the Chairman wants to take a look at this situation with a possibility of a hearing as early as Monday but the Committee schedule would indicate that Friday of next week would be a more likely day.

3. Slatinshek asked me to take a reading as soon as I get back to Headquarters and give him a preliminary verbal fill-in.
